## PROFILE

I am a highly motivated and enthusiastic computer science graduate with a strong foundation in programming languages including Python, HTML/CSS, JavaScript, React, MySQL, C, and C++. I am eager to apply my skills in a challenging environment and to learn new technologies.

## SKILLS

- Front End Development
- Databases
- Problem-Solving
- Team Player
- Attention to detail
- Critical Thinking
- Strong Communication

## PROJECTS

### PORTFOLIO WEBSITE

HTML CSS JAVASCRIPT

- Designed and developed a personal portfolio website to showcase my skills and projects, utilizing HTML, CSS, and JavaScript.
- The website includes an about section, a projects section, and a contact form for potential employers to reach out to.

### WEATHER APP

HTML CSS JAVASCRIPT

- Developed a weather app that allows users to search for the real-time weather of any city.
- Utilized APIs to fetch weather data from a third-party source and displayed the information in a user-friendly interface.

### CRYPTOCURRENCY DASHBOARD

REACT

- Designed and built a cryptocurrency dashboard that displays real-time exchange rates for various crypto coins.
- Utilized APIs to fetch data from multiple sources and presented the information in a visually appealing and easy-to-use interface.
